Wright Brothers Day

Digital Marketing Campaign

Campaign Overview

Marketing Gals

- Ella Gaona, Caitlin Burger, Isabel Pina, Mya Rayburn, Taylor Smedley, and Ava Subler

Campaign Goal: Encourage students to register for and attend Wright Brothers day on October 6, 2026, through a digital flyer and social media posts designed to increase awareness and participation.

Target Audience:

- WSU Students
- Local alumni
- Prospective future WSU students

Campaign Concept: "Take Flight"

- Encourage students to "take flight" by getting involved in Wright Brothers Day
- Connects to the Wright brothers and their impact on aviation
- Create a fun and memorable theme that ties our campaign together

TAKE FLIGHT

THIS WRIGHT BROTHERS DAY

ORGANIZED BY THE AMERICAN MARKETING ASSOCIATION OF WRIGHT STATE UNIVERSITY

INTERACT

Register here!

Meet the innovators shaping what's next, and see the Wright Brother spirit live in action!

Tuesday, October 6th | 11am-2pm | WSU Student Union

Content Strategy

- With this flyer, we aimed to communicate the message that WBD is a celebration of innovation and learning, allowing students, faculty, and neighboring businesses to connect all in one place.
- We used real photos from past WBDs to demonstrate what attendees would get to experience during the event.
- We wanted to communicate that while this event was organized by the AMA of WSU, it was not only for business students, but rather for anyone looking to share the spirit of innovation and learn from multiple organizations about their endeavors.
- **Original strategy complications:** When we first submitted our flyer, we planned to use a registration link for our audience, but were advised to add a QR code to our page for easier access. However, our updated flyer with the QR code was not used. This complication affected our results, making registration more difficult for viewers, and lead to lower numbers in our data.

Planned vs. Live Execution:

- *Planned:* Friday, September 18th (3-5pm)
- *Executed:* Sunday, September 27th (4pm)

Channels:

- *Planned:* Instagram & LinkedIn
- *Executed:* Cross-posted to IG, LinkedIn, & Facebook

Fulfillment:

- Visual flyer amended for QR code flyer–was not executed. Original flyer with registration link was clickable on LinkedIn and Facebook, but not Instagram.

Campaign Results

Total Impressions

1,741

Total Engagements

84

Registrations

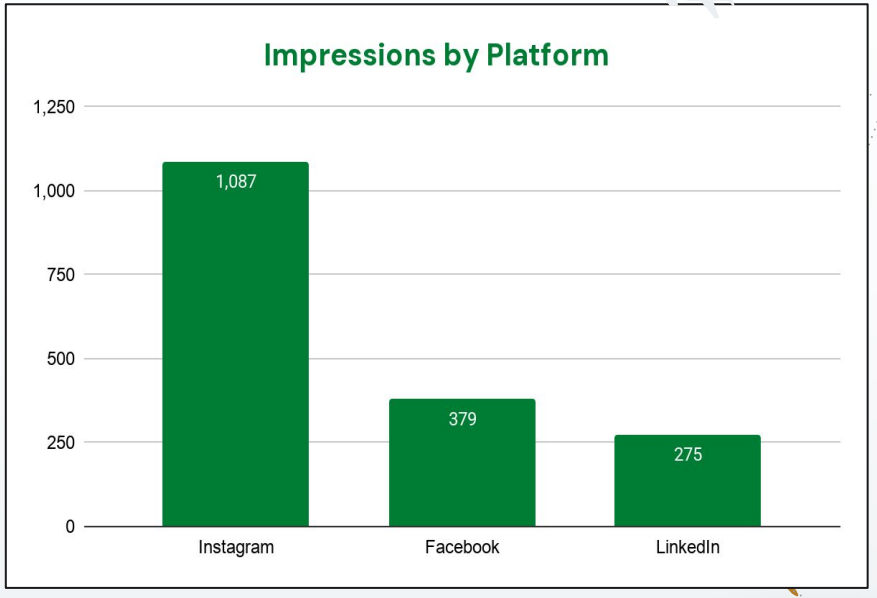

19

of 40 Registration Goal (47.5%)

Check-Ins

6

of 20 Check-In Goal (30%)

PERFORMANCE ANALYSIS

1. What Worked Well

High Attendance Follow-Through: Converted **31.6%** of registered students into verified on-site attendees (6 of 19 checked in).

Class-Leading Creative (IG): Achieved a **5.5% engagement rate** —the highest of any static flyer across.

Organic Peer-to-Peer Spread: Visual layout showcasing **Connect, Learn, Interact** drove **24** shares and reached **569** IG accounts.

2. What Did Not Perform as Expected

Registration Target Shortfall: Generated 19 registrations vs. 40 planned (**47.5% goal**) and 6 check-ins vs. 20 planned (**30% goal**).

Top-of-Funnel Conversion Drop-off: 1,741 total impressions yielded 19 sign-ups (1.09% CR).

Facebook Underperformance: Yielded 11 engagements (2.9% ER), 2 reactions, and 0 shares.

3. Root Causes & Execution Variances

Link & Friction Barrier: Flyer was adjusted for a QR code but published without it or an IG Story link sticker, forcing manual comment searches.

Timing Shift: Sunday 4 PM launch captured IG users, but missed peak weekday LinkedIn/Facebook traffic.

Diluted Messaging: Generic copy replaced tailored channel captions and hashtags, weakening specific registration CTAs.

Evidence & Metric Proof

Target vs. Actual Attainment

Registrations: 19 / 40 Goal **(47.5%)**
Check-Ins: 6 / 20 Goal **(30.0%)**
Show-Up Rate: 31.6% (6 attended / 19 registered)

Platform Engagement Breakdown

Instagram: 5.5% ER (1,087 Imp | 60 Eng | 24 Shares)
LinkedIn: 4.7% ER (275 Imp | 13 Eng | 6 Clicks)
Facebook: 2.9% ER (379 Imp | 11 Eng | 0 Shares)

Complete Campaign Funnel

Full cross-platform conversion flow:
1,741 Imp → **84** Eng → **19** Reg → **6** Attended
Impression-to-Registration Rate: 1.1%

RECOMMENDATIONS/ IMPROVEMENTS

Allow more promotion time: Set an earlier posting date for future projects so our flyer has more than two weeks to reach students.

Make sure the correct version is posted: Confirm that the final flyer includes the QR code before it is shared.

Match captions to each platform: Emphasize student activities on Instagram and Facebook, and the opportunity to meet innovators on LinkedIn.

Compare platform results: Use separate tracking links to see which platform brings in the most registrations and attendees.

Look into the attendance gap: With 19 registrations and 6 attendees, find out what kept interested students from attending.
